

Is your child interested in learning a fun, dynamic instrument or to consolidate existing skills?

Drums is not only a versatile instrument to learn but is also great for improving coordination and the skills of rhythm and timing.

I offer bespoke drum lessons for beginners and intermediate students. After playing drums for 30 years, being taught by one of the UK's leading drum tutors and being in a variety of successful bands, I look to share my knowledge, passion and expertise with the next generation of drummers.

SH Drums is able to offer your child the opportunity to learn these new skills in the familiar environment of Upminster Schools. I make the learning personalised, fun and enjoyable so the children leave each lesson with a smile on their face having learnt new skills.

Some recent reviews from current clients;

- 1. Stuart has been fantastic in encouraging my child, showing him more about music and the instrument*
- 2. My son absolutely loves learning to play the drums and can't speak highly enough of Stuart*
- 3. Stuart's positive attitude has really grown my child's confidence and has enjoyed every minute*

If this is something that your child would be interested in, please email me at [shdrumlessons@gmail.com](mailto:shdrumlessons@gmail.com).

Lessons are scheduled to be on a Friday afternoon.
