

## Maths home learning

We will provide you with a menu of home learning options so you can choose how best to support your child at home:

- Times Tables Rock Stars ([www.ttrockstars.com](http://www.ttrockstars.com)) - a carefully sequenced programme of daily times tables practice - additional support available on the website
- A variety of activities each half-term from The Family Maths Toolkit - a resource designed for parents/carers and children to enjoy everyday maths activities together
- Rapid Recall - additional support available on the website
- The website will also provide ideas and website addresses for additional information and activities.

*Please note: if you would like to do more formal work with your child at home, CGP do a variety of maths books for our year group ([www.cgpbooks.co.uk](http://www.cgpbooks.co.uk)). You will be able to match this to the weekly learning objectives.*

We will be encouraging children to complete some maths home learning each week and rewarding those who do so regularly; there will not be consequences for those children who do not do this since we acknowledge that it is not always possible to do so within the demands of family life.

We also believe that home learning should be fun and not be an area that causes conflict at home. If your child is struggling to complete their home learning then please stop and let us know – we do not want you to feel that you have to battle on!

If you feel that your child needs additional challenge in their home learning then please speak to us and we will provide you with some ideas of how to deepen your child's understanding.
